BEATEN BY BOYCOTTERS.

Aged and Respected Cleveland Ma Abused For Riding on Big Consolidated Cars.

CLEVELAND, Aug. 5 .- The fact has just come to light that Lucius F. Melen, ex-superintendent of the city infirmary and ex-general agent of the Cleveland Humane society, was terribly beaten by strike sympathizers last Wednesday. Mr. Mellen is 68 years old and is in a precarious condition. His family did not report the matter to the police for fear of further violence. Mr. Mellen rode on a Big Consolidated car Wednesday to H. G. Patton's sign painting stop, at 904 Pearl street, to order a sign. He was followed into the shop by a boy, who called to two men within that he had ridden on a "scab." car. The two men seized Mr. Mellen and threw him out of the door. The aged man fell on the sidewalk and the two men and the boy, reinforced by two other men who came along, kicked him

brutally.

Mr. Mellen later was assisted to his home on Library street. While his injuries are not in themselves dangerous, his age makes his condition precarious When this city learns through ne vspapers of the attack on Mr. Mellen it will cause widespread indigna-tion, as he is one of the oldest and most prominent citizens of Cieveland, and has for years been a leader of national fame in church and charitable work.

At nan Place, about 40 miles east of Camp Meade, Conductor Climinson ordered them to go inside, but they re-fused and when he seized one of them by the arm the soldiers attacked him.

The train was stopped and the entire crew went to the assistance of the conductor, who was rendered unconscious by a blow on the head. When the train reached this city Climinson was taken to the hospital, where it was found that one side was completely paralyzed. The physicians say he will die. OUR FINANCIAL POWER.

NEW YORK, Aug. 5 .- R. G. Dun & Co.'s weekly review of trade issued to day said in part: July failures have been smaller than

smaller than in any other month. Surprising contrasts are shown by comparison of small with large failures in different years, and in no class of business. without some large failures not attributable to present influence, does the aggregate equal the average of the past six

London again recognizes the financial power of this country. The Bank of England virtually admits that it cannot draw from New York the gold it needs; exchanges moves to the importing point; over \$1,000,000 starts from Sydney to San Francisco; London's net buying of stocks has been 40,000 shares. and bills against produce to be shipped

are very heavy.

This describes a revolution in finances not unlike that in industries, Europe searching for wool here at 50 cents scoured and for pigiron at \$20 per A vast demand for both materials has fallen upon the commercial world, which this country alone appears able to meet for its own needs. Wool shipments from Australia have been sur prisingly little below those of last year, but Europe talks of a wool famine while this country has on hand a year's consumption or more besides this year's clip, and prices are not yet as high as they were in February of last year, when stocks were many million pounds larger. Cheviots and some other goods are higher, but the average has advanced slightly less than the price of

Scarcity of Bessemer pig has caused two steel works at Pittsburg to stop a day or two, and \$21.25 to \$21.75 has been paid for 30,000 tons, with \$17.75 for Gray forge, and a rise of 50 cents in local coke at Chicago. It is no longer a question whether enough can be had after awhile, the trouble is about early supplies. Orders for plates and struc-tural work are refused at most points, mills having work far ahead, and for sheets also at Philadelphia, though new and large mills make things easier in plates at Pittsburg. Bar iron is in great demand instead of steel, being \$3 to \$4 cheaper, and new eastern milis get all the business they want. The magnitude of the demand, in spite of high prices is everywhere a surprise.

Once more Councilsville eclipses itself with only 550 ovens idle, and 191,541 tons coke produced for the week. Wheat weakens, yielding I cent with

the astonishing receipts at the west, 4,-734,363 bushels for the week, against 3,199,543 last year, and 23,598,189 bushels since June, against 10,508,876 last year. Not less potent in that regard is the shipment of 4,003,497 bushels corn for the week, against 1,734,347 last year, and 15,688,018 bushels since June, against 8,502,310 last year.

LAURIER'S CHILDISH ACT.

Refused to Visit Chicago For Fear th Governor General Would Be Insulted.

Washington, Aug. 5 .- Mr. F. W Fitzpatrick of the treasury department returned from Ottawa to Washington, where he went at the instance of the committee of citizens of Chicago, in charge of the ceremomes of laying the cornerstone of an assured fact. All pessimistic fears that city's great postoffice building, were removed by the action of the congood supply of ammunition, passed next October, by President McKinley, between here and Pittsburg, going in to arrange for the formal invitation and expected acceptance of an invitation from Chicago's citizens to the governor general and cabinet of Canada to par-

ticipate in those festivities.

He admitted that his official reception the present conditions it would be imside of the border.

Mr. Fitzpatrick said that Sir Wilfrid self to visit Chicago, as he feared that they might in a great gathering of such a character as the Chicago ceremony be subjected to some unpleasant-ness or indignity by thoughtless persons. Sir Wilfrid expressed himself as strongly in favor of arbitrating the Alaskan

boundary dispute.

He said he would advise the governor general not to accept the invitation.

Mr. Fitzpatrick secured Sir Wilfrid's promise, however, to reconsider matter.

TIRED OF HIS THRONE.

to Abdicate-Delcasse to Try to Dissuade Him.

LONDON, Aug. 5 .- M. de Blowitz, the Paris correspondent of The Times, gave an extraordinary explanation of the present mission of M. Delcasse, the French foreign minister, to Russia. He asserted that it was decided upon quite suddenly for a "reason which admitted of no delay," and then gives the story, which he sates he had been supported by the story of the st which he says he has from "a source to which I am bound to attach importance." This is the explanation:

'Emperor Nicholas is disappointed and tired of the throne. The of an heir excites his superstitious feelings and he connects himself with a Russian legend, according to which an neirless czar is to be succeeded by a Czar Michael, predestined to occupy Con-

stantinople.
